

The PLANFIX PRO55 orbital sander is the ideal machine for finishing and varnish-removal jobs on wooden floors and is suitable for both professional floor contractors and DIY users.

This model, very popular in the DIY market in France, Belgium, Ireland, Scandinavia, South Africa and New Zealand, is available in two versions (50Hz or 60Hz). A powerful motor of 1,100 W together with a 800W motor on the 15lt vacuum unit grants excellent results on the floor.

The big 300x460mm sanding pad permits to save time during the job.
