

The MLP-120 is a compact and robust pipe laser which is small enough to fit into a 120mm pipe. Constructed in an aluminium housing the MLP-120 is fully waterproof and has a selectable grade range of +50% to -15%. 30 hours of continuous use is available from the 7.2v Makita type battery with a recharge time of just 1 hour

Battery life 30 hours
Beam wavelength 635 nm
Horizontal accuracy 5mm at 100m
Minimum pipe diameter 120 mm
Power supply built in ni-cad
Recharge time 1 hour
Self levelling grade range +50% to -15%
Self levelling range +55% to -20% %
